

Hind Bundoq

IT Instructor | Frontend Developer | Computer Science Graduate

0792130062 · hindbundoq@gmail.com · Amman, Jordan

SUMMARY

Computer Science graduate with hands-on development and instructional experience gained through teaching, internships, and academic projects. Strong foundation in core programming principles, Object-Oriented Programming (OOP), Data Structures, and UML modeling. Proven analytical and problem-solving skills, with a focus on building functional software solutions, simplifying complex technical concepts, and driving effective task organization.

EXPERIENCE

IT Instructor (British BTEC IT Curriculum) | Alufoq Secondary School — Amman, Jordan

Sep 2025 – Jan 2026

- **Curriculum Delivery:** Taught Grade 10 students the British BTEC IT curriculum, covering Data Modeling, Python Programming, Spreadsheets, and Computer Networking.
- **Instructional Simplification:** Delivered structured, interactive lessons that simplified complex IT concepts, programming logic, and system architectures.
- **Practical Training & Assessment:** Designed and implemented hands-on lab activities and technical assignments to reinforce students' practical understanding.
- **Classroom Management & Leadership:** Maintained high classroom engagement while developing strong technical documentation, communication, and instructional delivery skills.

Focus: Python, Data Modeling, Computer Networking, Spreadsheets, Technical Documentation

Frontend Developer Intern | Jo Academy — Amman, Jordan

Jul 2025 – Sep 2025

- **Frontend Development:** Built and styled interactive, responsive web interfaces using HTML, CSS, and JavaScript.
- **Version Control & API Testing:** Utilized Git and GitHub for version control and source code management, and Postman for API testing.
- **Agile Task Management:** Applied time management techniques using Trello to break down complex project tasks into actionable steps.
- **Core CS Fundamentals:** Strengthened theoretical and practical understanding of core programming concepts, Data Structures, and Object-Oriented Programming (OOP).

Tech: HTML, CSS, JavaScript, Git, GitHub, Postman, Trello

SKILLS

Programming: Python, JavaScript, SQL, HTML, CSS

Concepts: Object-Oriented Programming (OOP), Data Structures, UML Modeling, Data Modeling, Computer Networking

Tools: Git, GitHub, Postman, Trello, Notion, Microsoft Office 365

Professional: Problem Solving, Adaptability & Self-Learning, High Attention to Detail, Task Management & Planning, Instructional Delivery

EDUCATION

BSc Computer Science — Al Hussein Bin Talal University — Ma'an, Jordan

2021 – 2025

Courses & Certifications

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Figma UI/UX Design Essentials – Udemy
- Artificial Intelligence Fundamentals – JoCodes
- HTML, CSS, JavaScript Development – Orange Academy

ACCOMPLISHMENTS

- Competitive Chess Player — ranked 1st place at university level for four consecutive academic years.
- Competed in the IEEE Xtreme Global Programming Competition.
- Esports Volunteer — Jordan Esports Federation: Assist in event coordination, team operations, and smooth tournament execution.
- Participant in Crown Prince Foundation Programs (Youth & Leadership initiatives).
